

## CYBER ASSESSMENTS SPOTLIGHT

# AI-Powered TPRM at Scale:

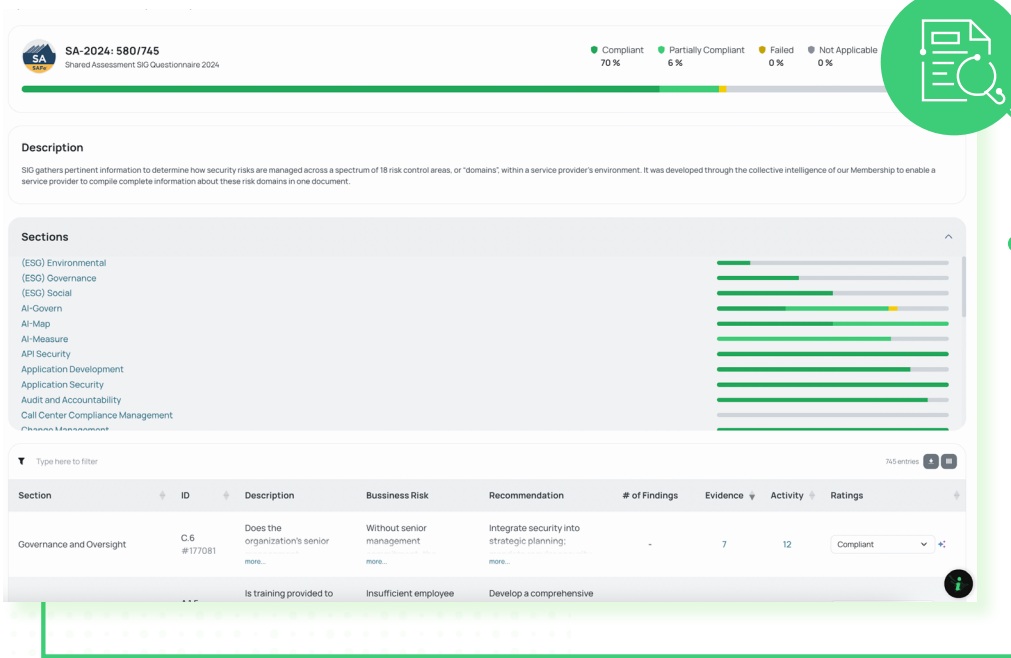

Immediate Cyber Assessments,  
Massive Time Savings.

## INSTANT COMPLIANCE CLARITY

### AI-Powered Document Analysis in Minutes

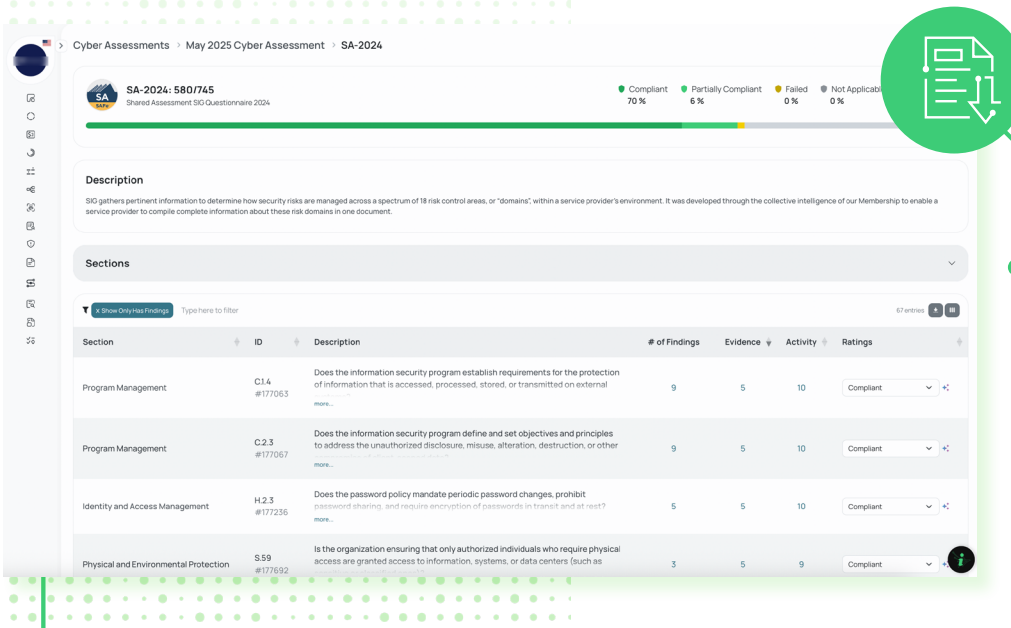

- Leverage AI to get immediate insights into vendor compliance across 18+ frameworks (NIST-800 53, ISO27001, GDPR), or your own Custom Framework
- Slash manual review time – analyze any vendor documentation (SOC2 Reports, questionnaires) in seconds.

## PROACTIVE RISK MITIGATION

### Quickly Spot and Address Compliance & Technical Gaps

- AI pinpoints specific compliant and non-compliant controls, so you can focus on vendor follow up on gaps.
- Easily identify and communicate critical security weaknesses, and drive faster remediation with clear, actionable insights.

## SIMPLIFIED GOVERNANCE & AUDITS

### Maintain a Clear History of Assessments & Trends

- Track vendor compliance over time with point-in-time records, allowing you to monitor their security maturity and identify potential regressions or improvements.
- Streamline audits with readily available compliance history.
- Strengthen your governance and reduce audit burdens.
